

The activities below have been chosen to link with this half term's topics.

Please discuss them together with your child and complete the one that you are both most interested in.

This homework task is intended to be completed by your child working alongside parents and carers.

We hope you enjoy the activities.

Geography—Scotland

Use the internet or the local library to create a fact sheet about Scotland. You could include different towns and city, Scottish food, famous Scottish people in history, places to visit, interesting facts etc. Make your factsheet as appealing to the reader as possible by including photographs or drawings.

Year 1

Spring 1st Half-Term

Please return the completed task and the rest of the homework pack on:

Monday 5th February 2018

There will be a display of the completed tasks in the hall on 7th February 2018 for parents to come and enjoy.

RE—An Island Home

Design your own island home. Think carefully about what you would need on your island to survive. You can either draw your island or make a 3D model using junk found around your home.

Shortbread

Using recipe books or the internet, find a recipe to make your own shortbread. Bring some into school for your friends to see or take a photograph of your shortbread to show and display. Write Up your recipe so we can see how you made it.

Science—The Woods

With an adult, take a walk in the woods. Draw pictures or photograph the different plants and animals you see on your visit.

Music Maker

Can you make your own musical instrument at home using junk, e.g, a yoghurt pot with dried pasta to make a shaker or a Cereal box and string to create a guitar. Or you could decorate a paper plate and make some castanets.

MY OWN IDEA

Design your own homework activity based on the topics of this half term.
