PE and Sports Premium Grant Strategy 2020-21

Amount of Sports Grant Funding received 2020-21 : £19,550

How PE and Sport Premium Grant is spent

This funding is used to make additional and sustainable improvements to the quality of physical education (PE), physical activity and sport.

The premium is used to:

- develop or add to the PE, physical activity and sport activities offered
- build capacity and capability within school to ensure that improvements made now will benefit pupils joining the school in future years

The premium is used to secure improvements in the following indicators:

- the engagement of all pupils in regular physical activity - the Chief Medical Officer guidelines recommend that all children and young people aged 5 to 18 engage in at least 60 minutes of physical activity a day, of which 30 minutes should be in school
- the profile of PE and sport is raised across the school as a tool for whole-school improvement
- increased confidence, knowledge and skills of all staff in teaching PE and sport
- broader experience of a range of sports and activities offered to all pupils
- increased participation in competitive sport

Rationale behind the use of the funding in our school community

- Children who don't meet their physical developmental milestones
- Families with a limited income restricting capacity to join clubs, provide equipment or attend sporting events
- Significant obesity levels
- Significant number of families have limited places to play; street housing with no gardens
